

Industrial Flooring

Chemco have developed a range of innovative, user friendly, solvent-free and water-based flooring systems that are hard-wearing, chemically resistant and can be made to any colour. Unlike traditional flooring systems, they do not contain harmful solvents and are non-flammable with very little or no odour.

These systems are designed for a wide variety of applications offering protection from chemical attack and abrasive environments. Chemco deliver high quality, specialised systems, tailor-made to your specific requirements which provide the following:

Solvent-free, Water-based, Self-levelling, Anti-static, Non-skid, Anti-slip, Conductive, Seamless and Aesthetically pleasing finishes

Chemco's industrial flooring systems can be utilised for the following applications:

- Chemical Containment
- Food Processing
- Aircraft Hangars
- Garages/Showrooms
- Distilleries
- Clean Rooms
- Commercial Premises
- Plus many more...

Product	Description
Chem-deck™ RA 800	<ul style="list-style-type: none"> • Solvent-free, moisture tolerant coating or self-levelling • Exceptional flexibility, chemical resistance and high gloss finish • Ideal for specialist anti-slip and non-skid applications
Chem-deck™ RB 800P	<ul style="list-style-type: none"> • Solvent-free, epoxy Novolac primer • Excellent chemical and high temperature resistance • Utilised as a primer for Novolac topcoats
Chem-deck™ RG 800	<ul style="list-style-type: none"> • Solvent-free coating or self-levelling • Tough, hard-wearing, high gloss and aesthetically pleasing finish • Fast curing with good colour stability • Exceptional chemical and amine blooming resistance
Damp-crete™ RH 800	<ul style="list-style-type: none"> • Solvent-free, wet tolerant concrete primer • Utilised for new or green concrete • No requirement for customary 28 days drying period
Fast-flor™ RS 800	<ul style="list-style-type: none"> • Water-based, single pack, acrylic system • Outstanding water spotting and UV resistance • Suitable for outdoor applications
Easi-flor™ RX 800	<ul style="list-style-type: none"> • Water-based epoxy system • Excellent chemical resistance • Exceptional adhesion to almost all substrates • Long pot life, fast curing ensure excellent productivity
Epo-flex™ RG 500	<ul style="list-style-type: none"> • Solvent-free epoxy system • Outstanding flexibility and crack-bridging characteristic • Extensively used as a waterproofing membrane or flexible interlayer
Nano-lite™	<ul style="list-style-type: none"> • Solvent-free, lightweight, low density, polymeric screed • Utilised for levelling marine decks and for insulation purposes
