

Chemical Tank Maintenance and Repair System

Patch Repair or Full Refurbishment

Epo-chem™ RE 500P: Primer / First Coat

Epo-chem™ RW 500: Topcoat / Second Coat

- Solvent-free, no specialist ventilation or fire precautions
- Any surface preparation method can be utilised: abrasive blasting, water jetting or mechanical
- Two-pack, solvent-free Novolac technology
- RE 500P (surface tolerant primer) and RW 500 (glassflake topcoat)
- Low viscosity and easy to apply by brush / roller / airless spray
- Outstanding protection for the most aggressive chemicals
- High temperature and chemical resistant
- Fast-cure / overcoating
- Only two coats and short back-in-service
- Major cost saving
- Reduced H&S and Fire Precautions
- Suitable for dry-dock, crew and riding squad application
- Ideal for high temperature applications and chemical tanks
- Available in 5kg and 20kg pack sizes
