

## InD-Cote™ Abrasion Resistant Lining

Three pack epoxy Novolac compound incorporating a blend of different grades of ceramic fillers and beads. This is a **high density, high temperature** Novolac epoxy lining designed for very aggressive abrasive environments with the following advantages:

- A seamless, repair and protective coating compound for long-term protection
- **Solvent-free**
- Low odour
- Easy to apply by trowel

Especially formulated for fluid-flow equipment, hoppers, nozzles, chutes, vessels, pipe bends and deflector plates, etc. Recommended to be used in conjunction with **Epo-chem™ RE 500P** (primer) and **Ceram-chem™ RU 500** (topcoat/sealer) for a complete repair system.

**This product is not machinable.**

Applying InD-Cote™  
by trowel

InD-Cote™  
finished surface

RU 500 as sealer

2mm of InD-Cote™  
applied by trowel

RE 500P primer
