

Client: <i>Diageo Distillery</i>	Industry: <i>Food & Beverage</i>
Scope: <i>Roof and Surface Walls</i>	Date: <i>May 2009</i>
Location: <i>Belfast, Northern Ireland</i>	Product: <i>Epo-chem™ RA 500M</i>

Overview

The fermentation room required a suitable coating system for the roof and walls. FDA approval was a necessary requirement.

Challenge

Working in a damp environment to a limited timescale, with no disruption to the manufacturing process and no blasting permitted/feasible.

Solution

One coat of **Epo-chem™ RA 500M** solvent-free, **wet tolerant** glassflake epoxy system @ 150µ by brush and roller.

Outcome

The work was carried out on time, within budget, with no H&S issues, no major delays and more importantly, no disruption to production.

Benefits

- Solvent-free
- Easy to clean/wash
- No major delays to program
- Reduced cost of plant and equipment
- Reduced H&S and Fire Precaution
- Extremely fast and efficient
